

INSTRUCTIONS

1. Take front (long) panel and place upright on a solid, stable surface.
2. Slide the tabs of one of the side panels (B) into either side of the front panel (A). Align tabs on the front panel (A) with slots on the side panels (B). slide side panel down until firm in position.
3. Repeat step two with other side panel.

PowerPlex Defense Shields should only be cleaned with an approved cleaner specifically made for plexiglass. We recommend Green Stream plexiglass cleaner along with their other lines of industrial cleaning products. Please visit www.greenstream-ppe.com to order. Please use caution when cleaning plexiglass shields and disassembly is recommended when possible.
